

Welcome to Tekton Algo Trading

We want to remove the barriers to investing and algo trading and make it accessible to everyone.

The algo trading process:

Think.

Plan your strategy – understand how trading works and gain confidence to trade.

Build.

Put your strategy into practice and enhance your knowledge.

Test.

Manage your risks – opportunities to design and fine-tune your strategy before trading.

Trade.

Enhance your future. Take action. You're ready to trade.

Benefits of using Tekton Algo Trading.

- 1. No coding skills required**
Seamless placement of trades.
- 2. Easy to build and test strategies**
Your Pocket Quant to create a strategy and backtest.
- 3. Self-manage signals**
Receive alerts so you know when the conditions you have set have been met.
- 4. Easy to use interface**
A customised dashboard to support your algo trading.
